Technical Data Sheet

Part Number	TDSF-1000917
Dimensions	12.75" X 8.375" X 26"H
Style	Cartridge, Open/Open
Media	100% Izumi Spunbond Polyester
Frazier Permeability	25
Fractional Efficiency	99.99 on 1 micron particles*
Pleats	140
Surface Area	100 Square Feet
End Caps	Galvanized Metal
Inner Support	Galvanized Helix Metal
Outer Support	Qty (2) Polyester bands
Gasket	1/2" x 1/2" polyisoprene
Temperature Rating	225 F

**Fractional efficiency is measured after 350 hours of operation. Actual efficiency of the filter may vary based on the application. Efficiency will also be affected by dust concentration, size of the particle, the airflow and the cleaning methods.*
