TDSF-1000635

Part Number	TDSF-1000635
Dimensions	12.75 x 8.38 x 26 Open/Open
Media	80/20 Cellulose/Poly Blend FR
Frazier Permeability	15
Fractional Efficiency	99.99 on .5 micron particles*
Pleats	313
MERV Rating	12
Surface Area	226-Square Feet
End Caps	Galvanized Metal
Inner Support	Helix 72% open galvanized
Outer Support	72% open galvanized
Gasket	.50 x.50 continuous rubber
Temperature Rating	225° F.

**Fractional efficiency is measured after 350 hours of operation. Actual efficiency of the filter may vary based on the application. Efficiency will also be affected by dust concentration, size of the particle, the airflow and the cleaning methods.*
